

SoLAR Pakistan, in collaboration with Dr. Andrew Bell from the Department of Earth and Environment, Boston University, pre-tested choice experiment questionnaires with farmers in Rahim Yar Khan

From August 9 to 14, 2022, a five-member team from IWMI Pakistan, in collaboration with Dr. Andrew Bell from the Department of Earth and Environment, Boston University, visited two tehsils of the Rahim Yar Khan district to pretest ODK-based choice experiment questionnaires. Twenty-four farmers were contacted during the pre-tests. The researchers will modify the questionnaires for the final surveys based on the responses to the pretested questionnaires. An off-farm pretesting session with the framers was conducted on the Khwaja Fareed University of Engineering and Information Technology (KFUEIT) premises on August 13, 2022.
